# [Useful Tips]
- How to display V-SFT-6 in foreign language -

Before

I usually use English menu but sometimes need to display in different language…

For example,
-At overseas work site: I want to show V-SFT-6 in the local language to a local engineer.
-At domestic work site: Engineers from overseas want to view V-SFT-6 in their languages.

Can I display V-SFT-6 in foreign language?
Do I need to buy foreign language version of V-SFT?
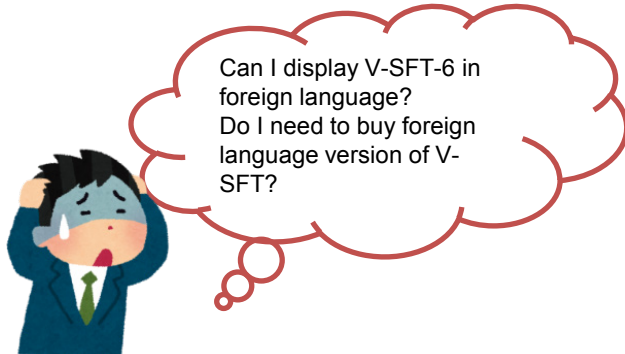

No worry about the display language in V-SFT-6!

After

V-SFT-6 is a universal product provided on a DVD.
It supports five languages (JP/EN/CN/TW/KR) as a standard.

Menus in EN/CN/TW/KR are displayed automatically depending on the OS installed on your PC.
By installing language packs*, DE/IT/FR/ES menus are also available.
 *See the reverse side.

Language Setting
- Japanese
- ✓ English
- More ▶
  - Chinese(Simplified)
  - Chinese(Traditional)
  - Korean
  - German
  - Spanish
  - Italian
  - French
- Auto

Good!
I still can use my usual V-SFT-6 for multi language menu!

## How to set the display language which is different from the OS

E.g.) How to display V-SFT-6 in German on English OS:

(1) Start V-SFT-6. Click an icon in the top left corner and then click Language. Check "German" from the list.

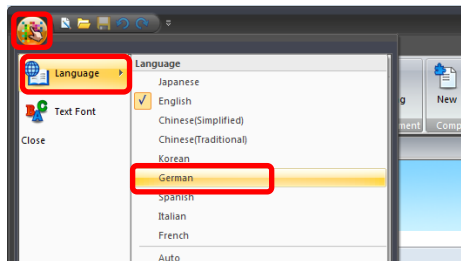

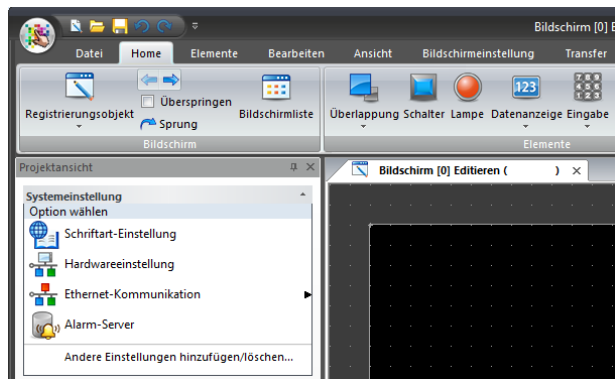

OR

Alternatively, start V-SFT-6 and go to File> Language Setting > More and then check "German".

(2) The following message is prompted. Click the OK button.

You do not need to open a V9 screen program.
Language menu as above is available by starting V-SFT-6.

(3) After restarting, V-SFT-6 is switched from English to German.

About installation of foreign language menu

[CN/TW/KR]   While installing V-SFT-6, a window to install additional languages appears.

<Language menu that appears during installation>
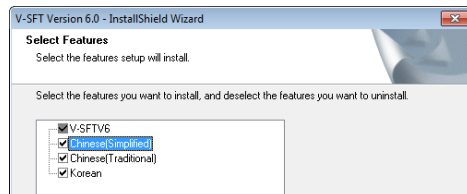

[DE/IT/FR/ES]   You can download the language packs from our website to install these languages.
