

<For Customers who Output Data Sheets to PDF> Reduce the Hassle of Managing Data Sheet PDFs by Using the “Add” Function!

For example, when saving product inspection results to PDF...

Before

Each single-page result is output as an individual file.

After

Data of one lot can be managed as one file because pages can be added.

Setting location

[Home] → [Data Sheet] → [Data Sheet Setting]

Data Sheet Setting

Convert to Extended Data Sheet

Print Data Sheet No. Setting Device
 PLC1 0 D 01000

Paper Size A4 Portrait
 Characters 80
 No. of Lines 66

Use Character Graphic Print

Use PDF Output Function

Overwrite Add

Command Device

Internal 0 \$u 00100

File Designation

Device Internal 0 \$u 00500

File Name

Append timestamp to filename

Designate the sub-folder name

Device Internal 0 \$u 00100

Sub-folder Name LIST/ PRODUCT1

PDF Output Drive None

Callouts:

- Select [Add].
- Specify an arbitrary filename for PDFs (one-byte alphanumeric characters). If specifying by device memory, it is possible to change the file in RUN mode!
- Specify any folder for storing PDFs! (one-byte alphanumeric characters)

Since I can specify names for the subfolder and files as I like, it's possible to **store files in an organized state from the beginning!**
Checking data afterwards is also easy!

Text can now be rendered more clearly for extended data sheets!

Before
Logger Text is blurry...

Version 6.1.3.0 and later
Logger Text is clear and easier to read!

Unit Setting

GD-80E/V609E Compatibility Setting Local Mode Prohibition Setting

Backlight Buzzer System/Mode Switch Blink/Flash Overlap **General Settings**

Display Item Display All

- Interlock device reading operation (V8 compatible)
- Windows fonts (data display), Windows98 compatible
- Prohibit touch operation while processing overlap display
- Display logging No. of Data Sampling area (V8 compatible)
- Connect remote desktop function using RGB 32-bit color.
- Operation of animation (V8 compatible)
- Yaskawa Membus special conversion (V8 compatible)
- Make text rendering for printing extended data sheet PDF clear
- Double-word access by IBL_WHITE macros (V7 compatible)

* Only for TrueType fonts. For setting details and precautions, refer to the V9 Series Reference Manual 1.

When saving data in digital format, outputting data sheets to PDF is highly useful!
Promote digitalization with the improved data sheet function!
