# FO Fuji Electric MONITOUCH EXPRESS

## **V9 series - Recipe function**

Issue No. 57 October 2014

Recipe function was enhanced.

- Global control : Read/write of a recipe is easily achieved by setting trigger bits.
- Easy operation : Read/write by selecting a desired recipe or record from a list is possible.
  - Also "filtering" feature to search a file or record is supported.

## **Global Control**

Whatever screen is displayed on the V9, read/write of recipe is possible in background by turning on or off the trigger bits.

No such limitation as running recipe function on specific screen or coding macro.

Read/write of recipe is easily achieved.

\*V9 supports BIN format as well as CSV.

#### E.g.) M0 (ON) triggers loading a recipe file to a PLC:

No reproduction or republication. All brand names and product names in above are trademarks or registered trademarks of their respective companies.

## F Fuji Electric MONITOUCH EXPRESS

## **Easy Operation**

### Load a recipe by selecting a file or record from a list

It is possible to read/write the recipe easily by selecting a file or a record from a list. The list of recipe names helps you to achieve intuitive operation.

#### E.g.) Loading a recipe file named "JUICE01P" from V9:

	RECIPE				Select a recipe file.		RECIPE					
					ICE01P	T Filter						
Juice	Sugar	Essence	Flavor		ICE01W	🖂 New File			Juice	Sugar	Essence	Flav
0	0	0	0		ICE02P			APPLE	150	30	10	
	0	0	0		JELLY01W			ORANGE	180	40	10	
T	0	0	0					PEACH	140	80	60	
1	0	0	0		JUICEUTP			GRAPE	110	100	50	
	0	0	0		ILUCE02P			LEMON	100	900	40	
	1				JUICE02W							
		10000 (0000 (000)			PUDDING01P

					Loads recipe data.							

## **Filtering function**

You can easily extract the data on the recipe list by filtering the recipe files by name of the file or record.

## E.g.) Searching the file names beginning with "JUICE":

(2) Set the condition "Begin with" and and string "JUICE", and then press OK. (1) Open the recipe list and press (3) Only the files starting with "Filter" button. "JUICE" are displayed. JUICE01P ICE01P T File ICE01W JUICE01W Begin with - JUIC ICE02P JUICE02P JELLY01W JUICE02W JELLY02P JUICE01P JUICE01W JUICE02P Equal to JUICE02W PUDDING01P Cancel Restore the Display
